Professional Summary

Data Analyst with a strong foundation in **Python, SQL, Excel, Power BI, and Statistics**. Skilled in **data cleaning, data preprocessing, exploratory data analysis (EDA), data visualization, statistical analysis, and data interpretation**. Knowledge of **Machine Learning fundamentals**, with the ability to transform raw data into actionable insights and support data-driven business decisions.

Technical Skills

Programming & Analysis — Python, Pandas, NumPy, EDA, Data Cleaning, Data Preprocessing, Statistics
Databases & Querying — SQL (Joins, Aggregate Functions, Subqueries, String Functions, Window Functions)
Visualization & BI — Power BI, Excel, Dashboard Creation, Pivot Tables, Lookups, Data Visualization, Reporting
Machine Learning & Tools — Machine Learning Fundamentals, Git, GitHub, VS Code, OpenCV

Professional Experience

Python & Data/AI Intern, *Marcello Tech* 02/2025 – 08/2025
Trichy, India

- Developed **Python scripts** for data preprocessing, cleaning, and validation, improving data quality by **20%**; applied **statistical analysis and Machine Learning fundamentals** to identify data patterns.

Technical Intern, *Kaashiv Infotech* 07/2024 – 11/2024
Chennai, India

- Completed technical training in **programming, data flow, and practical implementation**.

Key Projects

Chennai Food Delivery Exploratory Data Analysis, *Python | Pandas | NumPy | Matplotlib | Statistics*
Analyzed food-delivery data using Python and Pandas, performed EDA, created Matplotlib visualizations, and derived insights using statistical techniques.

Automated Mobile Billing & Data Management System

- Developed a Python application for **billing, GST calculation, transaction management, and MySQL database integration**.

Voice & Vision Assistance System | Python, OpenCV, *Python & Data Analytics*

- Developed a **Python and OpenCV computer vision system** for real-time image processing and object analysis.

IoT Telemetry & Speed Analysis System | Python/IoT
Configured IR sensors and microcontrollers to **monitor vehicle speed and detect real-time speed violations**.

Certifications & Upskilling

Data Science with Generative AI, *Besant Technologies (Ongoing)*

Front End Development (HTML), *Great Learning Academy*

Introduction to Internet of Things (Elite Certification), *NPTEL / IIT Kharagpur*

Education

B.E. in Electronics & Communication Engineering (ECE), *SRM TRP Engineering College* 2022 – 2026
Score: 82% Tiruchirappalli, TN
